Twas the Night After Finals

LES ADVENTURES DE JULES PÉRMÔL #2

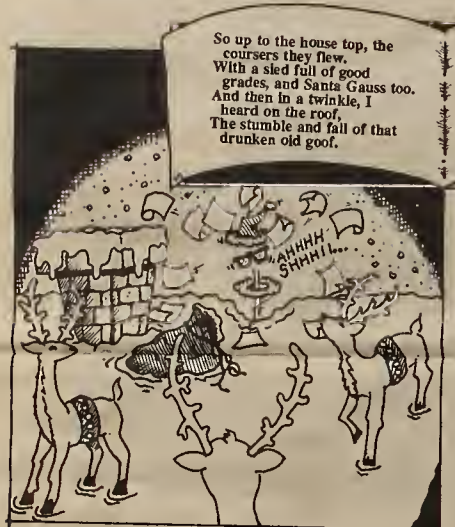

WRITTEN BY: DEAN DIPIETRO
ARTWORK: EMILIO GALASSO

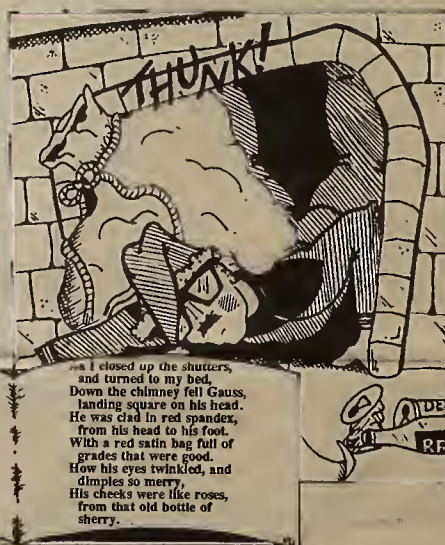

Twas the night after finals,
When all through the frat,
Not a reveller left standing,
The beer all gone flat.
Their exam marks were strewn
about the floor of the house,
In hopes for the coming of old
Santa Gauss.

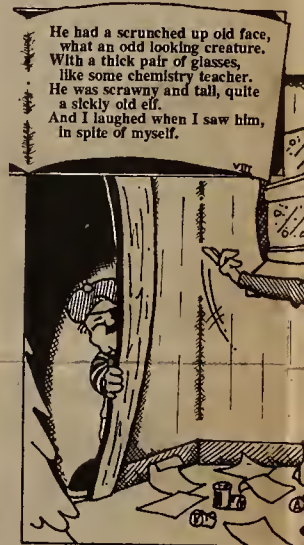

The conscious few stumbled
into their beds,
While visions of seventies
danced in their heads.

So up to the house top, the
coursers they flew,
With a sled full of good
grades, and Santa Gauss too.
And then in a twink, I
heard on the roof,
The stumble and fall of that
drunken old goof.

I closed up the shutters,
and turned to my bed,
Down the chimney fell Gauss,
landing square on his head.
He was clad in red spandex,
from his head to his foot.
With a red satin bag full of
grades that were good.
How his eyes twinkled, and
dimples so merry,
His cheeks were like roses,
from that old bottle of
sherry.

He had a scrunched up old face,
what an odd looking creature.
With a thick pair of glasses,
like some chemistry teacher.
He was scrawny and tall, quite
a sickly old elf.
And I laughed when I saw him,
in spite of myself.

The Toike Oike (ISSN
0049-4038) is a
humour publication of

the University of
Toronto Engineering
Society. It has a
monthly circulation of
16,000 copies and is
designed to entertain
engineers and other
students. We do not
mean to offend any
one, because that was
not our original
intention, but we are
only trying to make
you laugh. Now is
that a crime? I think
not. But this issue is.
I have absolutely no
time what so ever to
do this, but I am,
that's why it is so
short and has nothing
but blatant filler, but
then again what else
is the Toike usually
full of any way? But
I hope you all are
appreciating this,
because I am going to
fail my Phys. Chem.
assignment, which I
should be doing right
now! So finish
reading this and be on
your way, because I
have real work to do.
